Monthly Desert Locust Bulletin

issue39

August 2009

INTRRODUCTION

In the month of August there was not carried out a survey, but a news was collected the travelers people came from the locust breeding areas in the coastal and the plateau.

Locust situation

The locust situation in that month was clam ,because the coastal breeding areas was very hot as usually in the summer time .The plateau areas has got less rain except the western regions Maroodi-jeeh (Hargeisa) and Awdal (Boorama) those has got moderate rains.

Rain

During in the month of August moderate rains was fallen from Gacan-libaax mountain ,Hargeisa area Gabiley and Boorama we were suspected that rains fallen in those plateau areas to breed a locust but there was not seen a locust any where or not reported. The eastern regions such as Sahil,Togdheer,Odweyne,Sool and Sanaag there was no rains during that summer time and the climate was dried.

Vegetation

In due the high moderate rains locally known (Karan) were fallen in the regions Maroodi-jeeh and Awdal mostly the vegetations were green and greening .The eastern regions the vegetation were dried and there were no rains.

Soil Moisture

In that month of August the soil moisture mostly were wet especially the places received the rains in the regions Maroodi-jeeh and Awdal, and the other region such as Sahil ,Togdheer, Sool and Sanaag the soil moisture dried .

HORDHAC

Inkastoo aan la sameyn sahkankii bilaha ahaa ee la sameyn jirey sida caadiga ah bilkasta waxaa xogo laga helay lagu kalsoon yahey meelaha xafiiskan la xidhiidha wakiilada dawalada degmooyinka jooga iyo dadka socotada ah ee ka soo gala wadooyinka xeebaha ah ee dhulka taagaga ah.

Xaalada Ayaxa

Xaalada ayaxu bishaa wey deganeyd maxaa yeelay dhulka Ayaxu ka dhasho gaar ahaan dhinaca xeebaha ah waxey ku jirtey xiligii kulaylaha ee xagaaga kas oo caadi ahaan keena kulayl faro badan xiligaas oo aanu xamali Karin kuna dhalan Karin Ayaxu inta badan.

Xaalada Roobabka

Roobab meel dhexaad ah oo loo yaqaan caadiyan roobabkii Karanta ayaa ka daey gobolada Maroodi-jeeh iyo Awdal meelaha taagaga ah qaarkood. Sida buurta Gacan-libaax ,Gabiley iyo Boorama.gobolada Bari sida Sahil,Togdheer,Odweyne,Sool iyo Sanaag ma jirin wax roobab ahi cimiladuna waxey aheyd qaley .

Xaalada Dhirta Iyo Daaga

Xaalada dhirta iyo daaqu waxey aheyd inta badan cagaar gobolada Maroodi-jeeh iyo Awdal sababtoo ah waxey heleen roobabka caadiyan loo yaqaano Karan kuwaas oo inta badan helay labada gobol meelaha taagaga ah meel dhexaadna ahaa. Gobolada Bariga sida Sahil,Togdheer,Odweyne,Sool and Sanaag ma jirin wax roobaba ah oo ka daey bishaasi xaalada dhirta iyo daaqana wuxuu ahaa Qaley .

Xaalada Ciida

Xaalada ciidu waxey aheyd qoyaan meelaha roobabku ka daeen gobolada aan kor ku soo shegay Maroodi-jeeh iyo Awdal kuwaas oo helay roobab meel dhexaad ah oo ah roobabkii Karanta.

Forecasting

In that month we were suspected a locust to breed in the plateau areas and some places in the sub-coastal areas but fortunately a locust were not breaded in that month.
