Monthly Desert Locust Bulletin

issue41

October 2009

INTRODUCTION

in the month of October has been carried out the monthly survey in the coastal breeding areas ,and the plateau areas in which moderate and heavy rains has been fallen such as Maroodi-jeeh(Hargeisa) region, Awdal region, Sahil region, Silil region, Togdheer region and Odweyne region.

Locust situation

During this long survey only one soliarous isolated locust was observed in the location of Tayaag in Bullo-har area **(181222N/442617/E)** no locusts were found in the other areas were the survey carried out.

Rains

According the moderate and heavy rains fallen in the plateau areas and coastal areas such as silil region Lowyo-Ado, Saylac,Lanta-morahda,Gerisa,and Karuure up to the plateau areas , such as Hariirad, Boon, Gulu-jeed, Boorama, up to the border line between Somaliland and Ethiopia , Silil,Tog-dheer and Odweyne newly nominated region with it's southern border of eastern Ethiopia , we are expecting a locust to breed in the locust breeding areas coastal and plateau areas .Also the region ,Sool(Laascaanod) Sanag(Erigavo) the radio reporters and the travelers were reported us moderate and heavy rains were fallen that regions in the moths of September and October 2009.

Soil

The soil moisture of the surveyed areas in the regions mentioned above majority were wet. The local Damps, water pounds, and cisterns were filled of water.

Vegetation

HORDHAC

Sahan bile ah ayaa la sameyey bishii October oo laga sameyey meelaha Ayaxu ka dhasho ee xeebaha iyo dhulka taagaga ah ee buuraleyda iyo banaankaba oo laga sameyey gobolada Maroodi-Jeeh,Awdal,Sili,Sahil,Tog-dheer iyo Gobolka dhawanta la magacaabey ee Odweyne.

Xaalada Ayaxa

Mudadii sahan kaas lagu jirey waxaa kaliya oo la arkey Hal xabo oo ah Ayax keli jog ah oo lagu arkey meesha la yiraahdo Tayaag Degmada Bullo-har lookeyshankeduna yahey **(181222N/442617/E)**. Meelaha kale ee Sahanka lagu sameeyey laguma arag wax Ayax ah laakin xaalada jirta ee Cimilada waxay u eeg tahey in ayax ka dhalan doono meelahaas.

Xaalada Roobka

Xaalada roobku wey fiican tahey waxaana daey roobab faro badan oo meel dhexaad iyo roobab culusba leh kana kala daey meelaha xeebaha ah sida gobolka Silil , sida Saylac ,Lowya-Ado,Asha-ado , Elgal,Lanta-morahda,Weysa-cad iyo Karuure.Meelaha taagaga ah sida Hariirad,Boon,Qunujeed,Boorama ilaa xuduuda u dhaxeysa Somaliland iyo Ethiopia laga bilaabo gobolka Awdal ilaa gobolka Togdheer koonfurtiisa. Gobolada Sool iyo Sanaag iyagana waxaa telefonada iyo dadka socotada ahi noo soo wariyeen in roobab meel dhexaad ah iyo roobab waaweyniba ka da'een bilihii September iyo October.

Xaalada Ciida

Xaalada ciidu waxaey aheyd qoyaan meelaha sahamiyey sida gobolada aan kor ku soo shegay ee Maroodi-jeeh,Awdal,Sili,Sahil,Tog-dheer iyo Odweyne .

Xaalada Dhirta Iyo Daaga

In the above surveyed areas the vegetations were green and the vegetation density mostly were dense.

Forecasting

In the coming near future or the coming months if the ecological condition will be favorable a locust breeding will be expectable.

Therefore I am giving a recommendation to carry out a several surveys continuously how to follow the locust situation.
